Professional Summary

Originating from Gabtoli, Bogura, I have achieved success internationally, locally, and through active social engagement. After earning my Master’s in Accounting from the University of Dhaka and CMA from ICMAB, I began my career at Dhaka Sheraton Hotel, rapidly advancing to Financial Controller. I went on to become the first Bangladeshi and one of the first Asians to serve as CEO in the world’s largest hotel group. Since returning to Bangladesh in 2019, I have served as Managing Director of several companies and as a Board Member of a reputed commercial bank.

With two children currently studying at world-renowned universities in the UK and USA, I deeply value education and development. I bring strong people skills and leadership experience, which I am eager to serve the ICMAB community with. I am committed to supporting newly elected members to advance their careers locally and internationally, and to help build their entrepreneurial skills, contributing to the growth and global recognition of CMA professionals.
